REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: the prior art of record fails to teach or render obvious the use of a mobile food dispenser. The inventive concept of the instant application is to provide an animal feeder that provides a set amount of food to an animal in the form of a food dispenser. The dispenser then reacts to the presence of an animal by moving a distance away from the animal to thereby encourage the animal to chase after the feeder thereby increasing the activity level of the animal. While the prior art feeders included devices which react to the presence of the animal, this reaction is either to allow access to the device (such as in Leason et al. US 6,044,797) or to limit access to the feeder to only those animals having an appropriate identifier (i.e. Lanfranchi, US 5,669,328). As such, the prior art of record does not teach a mobile device which reacts to the presence of an animal in such a manner as to provide access to the feed compartment along with physically moving the dispenser in response to the presence of an animal.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Kimberly S Smith whose telephone number is 703-308-8515. The examiner can normally be reached on Monday thru Friday 10:00-4:00.
